PREFACE

On behalf of the Kenya Medical Training College (KMTC) Board of Directors, I am delighted to approve this Policy for use by Management. The KMTC Board is determined to improve access to, and equity of quality medical training and to ensure that the institution plays its role in the realization of Sustainable Development Goals (SDGs), Vision 2030, health sector policies and the government agenda on the “Big Four’. The Board continues to realize the set milestones which contribute to improving the quality and quantity of essential health care providers. Inadequate numbers of skilled care providers have had a negative impact on efforts to expand access and improve the quality of health services. This situation is compounded by continued high prevalence of communicable and non-communicable diseases in the country.

Towards this end, the KMTC Board of Directors under my leadership is determined to critically address the task of defining long-term strategies for addressing the constraints to training and development of quality health care providers through:

i. Improved policy and corporate governance for enhancing accountability and decision making.

ii. Enhanced access, quality, relevance and equity in medical training.

iii. Prudent resource utilization and good infrastructural management.

iv. Increased visibility of the Kenya Medical Training College nationally and internationally as a premier institution focusing on training, research and consultancy.

v. Improved resource base, partnership and linkages.

In response to the 2010 Constitutional agenda, the Board will continue to direct efforts at advancing community – oriented programs that respond positively to the country’s social and economic development agenda. This Policy therefore provides an analysis of the internal and external environment, and makes a strong statement on the role KMTC will play in supporting the Government to realize sustainable growth in the health sector. The Board is dedicated to offer oversight on the operations and management of the College to ensure sustainable delivery of health coverage in the country and beyond. I believe successful implementation of this Policy will be realized through total commitment of the entire KMTC fraternity and other key stakeholders.

Prof. Philip Kaloki, MBS,
Chairperson, KMTC Board of Directors.
